I don't like

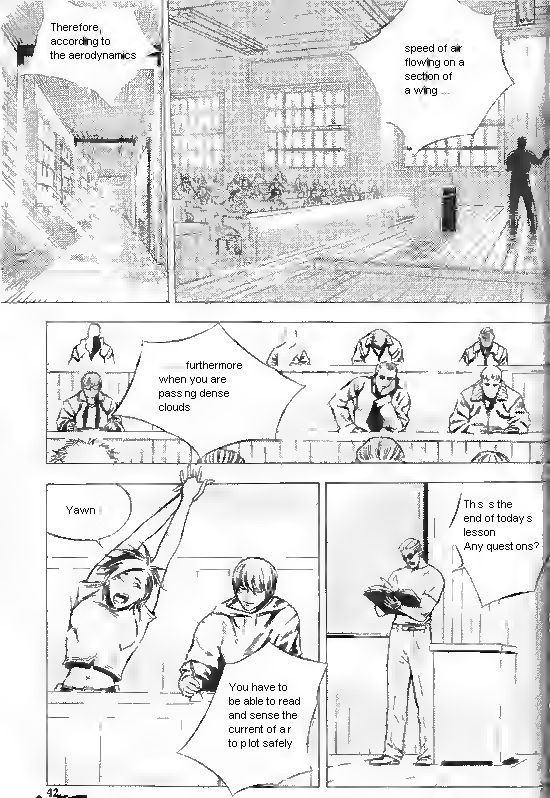
I don't
know what
you like or
dislike

But in order to get
on a plane, I cannot
lose to anyone !

That's why
I don't like
you

You get on my nerve
Oh yeah ? We don't like you, either!
You bring bad luck, that's why!

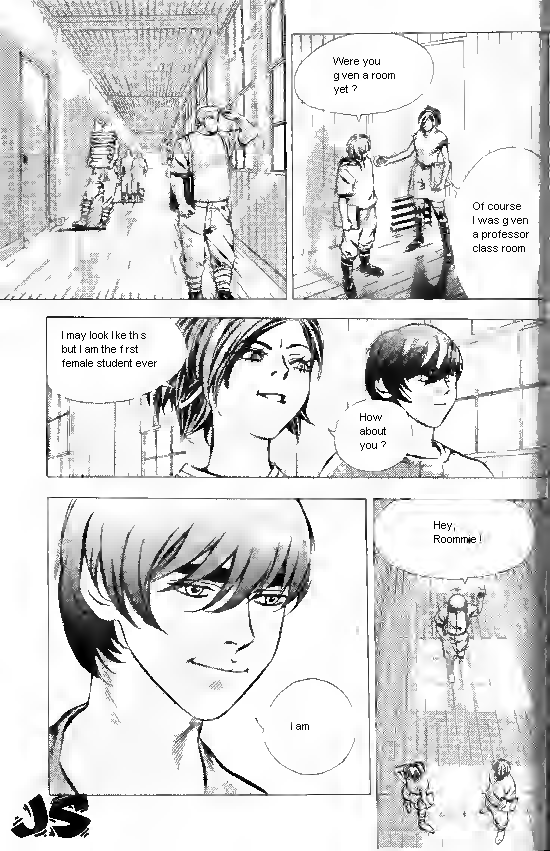


Therefore, according to the aerodynamics
speed of air flowing on a section of a wing ...
furthermore when you are pass ng dense clouds
Yawn
You have to be able to read and sense the current of a r to p lot safely
Th s s the end of today s lesson Any quest ons?

When can we ride planes
That s a good quest on
The day is when
Tighten up
Yes ??

When you can stand still after being hit by th s punch
maybe. I w ll just you get on an a rcraft

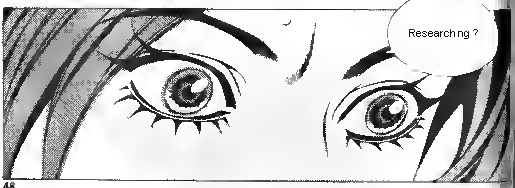
Rdng an aircraft s dfferent from rdng a bcycle
Argh a l
If you are chck act lke one
Follow what nstructors tell you wthout objectons understand ?
Yes, sir !!
광
Aah !
For a mother chck, the punch was too rough !



Were you g ven a room yet ?
Of course I was g ven a professor class room
I may look l ke th s but I am the f rst female student ever
How about you ?
Hey, Roommie !
I am

Don't tell me
It just happened He sa d he wanted to be my roommate so
How was your f rst day ?
Ah um
You are a professor Why are you stay ng n a dormitory ?
I want to save some money why ?
You must be one poor ass professor
Hehehe My one month salary would probably be 100 t mes more than monthly fee you pay !

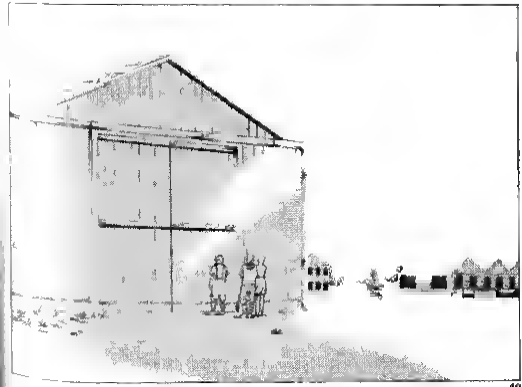
Are you bragging ?
argh !
I am not bragging ! I spend all my money on researching
!!



Researching ?

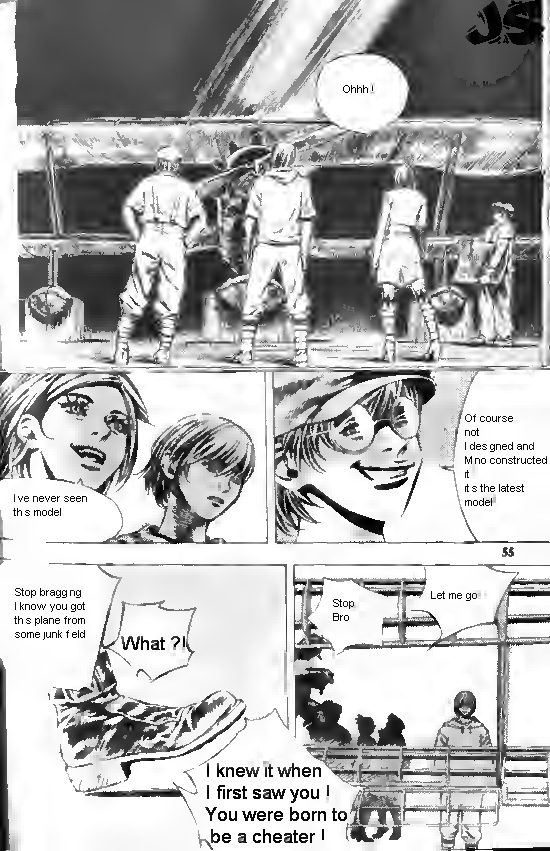
Yeah
Come to think of it Anuki hasn't seen it yet

What ?



Here.
Are you making a bicycle or something?
My brother is too good to be an owner of a hardware store
!!

My bro makes th s



JS
Ohhh !
I've never seen th s model
Of course not I des gned and M no constructed it It s the latest model!
55
Stop bragg ng I know you got th s plane from some junk f eld
What ?!
Stop Bro
Let me go
I knew it when I first saw you ! You were born to be a cheater !

What is your reason for approaching Anuki ?!
Reason ?! I don't have...
I would like to know as well
Uwaah!

I know that I do not have favorable personality.

That s not truth Anuk It s just

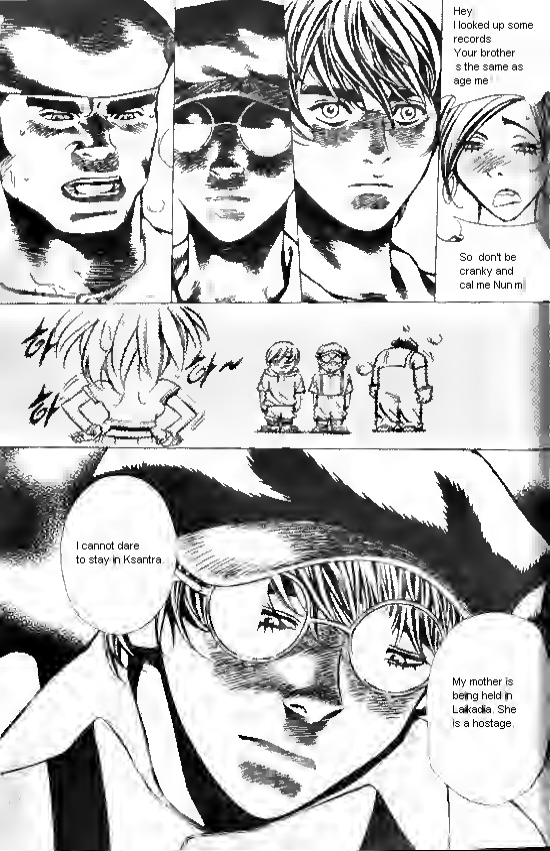
Why are you nterested n me ?

That's ...
Phew ...
I guess I should be honest...
As you can see, I am crazy about designing aircraft.
But I've been put n a situat on where I cannot fully pay attent on to design ng lately
What ?!

Laikadia is after me...
Because I designed Strike Eagle for Ksantra.
I was born n an island country where we have noth ng to do with Sya an war. People told me I was ngen ous n des gn ng a rcraft.
Ksantra became aware of my ab lity and formally nvited me.
I wanted to show off, and I made them Strike Eagle in a year.

And when Strike Eagle was put on front, Ksantra that was originally inferior when it came to air combat became even with Laikadia.
So, your show off spirit has changed the flow of the war, huh?
And.. for that, you are being chased by Lakada
Sh..Shut up !!
Why are you pissed up all the sudden ?
Lakada does not want me dead. Instead they want to scout me from Ksantra
And want me to design their latest air craft

Then if you stayed in Ksantra,
you would have been treated like a member of royal family. Why are you here ?!
OIL
GRRRR !
!!
!!



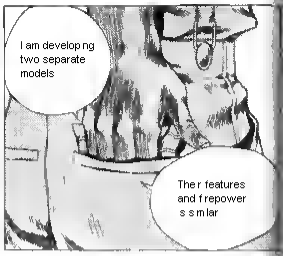
Hey
I looked up some records
Your brother
s the same as age me
So don't be cranky and cal me Nun m
I cannot dare to stay in Ksantra
My mother is being held in Laikadia. She is a hostage.

Your mother
My country has had noth ng to do with the war
Yet they sneaked nto the country and k dnapped my mother

We sneaked out of Ksantra to seek our mother
But this time Ksantra held our younger sister who was visiting Ksantra to study as a hostage
Then you are
I am stuck I cannot go to either country
If I do go to either country one of the hostage will be killed
I am sorry I didn't know

The air craft technology is being developed rapidly.
Few years later, there will be planes that fly much faster and fly on much higher attitude.
And be able to carry out more variety of tactical missions.
I don't care wh ch s de w ns
All I want s end th s war
You are go ng to g've both s des the latest a rcraft

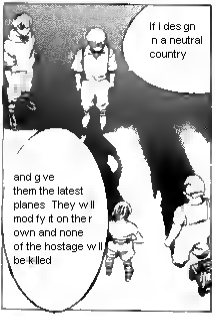
절래
절래



I am develop ng two separate models
Ther features and f repower s s m lar

I am go ng to present each one to each s de

You prov de them more f repower
Wh ch w ll eventually resu t the end of the war early



If I des gn n a neutral country
and g ve them the latest planes They w ll mod fy t on the r own and none of the hostage w ll be killed

What a scary guy you are

I've seen you endure more gravity than anyone else
In order to test and finalize new generation aircraft, people like you are needed
!!
If you could do that for me I will make you my best craft

The most advanced form of aircraft that Ksantra and Laikadia won't have ...
